

# 2024 President's Post Card for Vevia (in lieu of a quilt block)

At no cost to the guild, I had "Post Card" fabric printed up. Please enjoy creating a memory for me.

#1: Top layer is for you to do your thing. Thread paint, favorite fabric or block or color, paint, embroider, applique, collage, anything. Quilt it on top of batting or not. General size 8.5" x 5.5"

#2: I used Peltex 72F as a stabilizer to join my front and back because of the fusible on both sides. It stabilized my cards just the way I liked. Perhaps you might want to try shirt waist cardboard, poster board, 70 wt. Pellon or double sided fusible like Steam-a-Seam 2. Whatever. Cut it to size.

#3: Write a message to me on the "Post Card" fabric and PLEASE, sign your name. I used freezer paper ironed on the back to help stabilize and used a fabric pen. Press to set.

Join all layers together with what ever method you are using and then either bind, zig zag around, trim, or just a single stitch around to hold all layers together (even if used fusible).

Turn your Post Card in to me at the next meeting. Thank you for participating.
